

## PCHC SB TRANSGENDER CANDIDATE SURVEY QUESTIONS #2

- Sex of a person is determined by biology
- A person's gender is the same as their biologic sex
- Saying you feel like the opposite sex does not change your sex or gender
- Students should not be taught to use pronouns opposite the biologic gender of a person
- All students should be free from bullying including directing them to use pronouns opposite the biologic sex of a person
- Saying that one feels like the opposite sex does not change their gender or sex
- Bullying, including telling students to use pronouns opposite someone's biologic sex, should not be tolerated
- A student who says they are the opposite sex of their birth should have their parents informed and be offered mental health counseling
- Students should be taught the medical dangers of using puberty blockers
- Students should be taught about the high rate of suicide among those who identify as transgender
- Students should be taught about the high rate for those identifying as transgender that ultimately accept their biologic sex
- Parents have sole authority in making healthcare decisions affecting their child
