# Back to School Warning: Planned Parenthood's Agenda to Sexualize Your Children

---

By Sharon Slater | August 20, 2018

As many parents prepare their children for a new school year, **Family Watch is issuing this warning to parents everywhere: Investigate what Planned Parenthood is doing in your country and in your state, and especially in your children's schools.**

On the menu for many schoolchildren this year will not only be reading, writing, and arithmetic, but also anal sex, oral sex, abortion, gender change, sexual rights and sexual pleasure. [Click here](#) to see links to many of the Planned Parenthood comprehensive sexuality education (CSE) programs that may be coming to a school near you.

**Without question, the number 1 sexualizer of children worldwide is—Planned Parenthood.**

They are working diligently to get to your children through the schools with their radical sexual and gender ideologies.

[We first exposed](#) Planned Parenthood's agenda to sexualize children by uncovering their [“Healthy, Happy, and Hot” publication](#) distributed to youth at the UN. **This booklet encourages HIV-infected youth to engage in various sexual acts as part of**

**realizing their sexual rights**, and tells youth they don't have to inform their sexual partners that they are infected with HIV.

Of course, at that time, we had long-recognized and spoken out against Planned Parenthood's activities as a leading provider of abortion worldwide and in the U.S. But we were just beginning to understand and expose Planned Parenthood as one of the largest providers of sex education worldwide as well.

**You see, sex education is a major Planned Parenthood marketing tool for their contraceptive/abortion business.** Sex education is how they groom children in order to generate paying customers for "services" provided in their 65,000 service points in over 170 countries.

**Each child Planned Parenthood sexualizes is a potential lifelong customer for their services**, such as [sexual counseling](#), condoms, contraception, abortion, STD testing and treatment, etc. And let's not forget they also make money [selling aborted baby body parts](#), and some of their clinics now even offer transgender hormones.

**Did you know that Planned Parenthood has a stranglehold on United Nations agencies, shaping many UN reports, policies, and projects** in ways that fill Planned Parenthood coffers, promoting their radical and harmful sex education programs through UNESCO, UNAIDS, UNFPA, UNWOMEN, UNICEF and more?

**Click here** to see excerpts from the radical Planned Parenthood-inspired **2018 *International Technical Guidance on Sexuality Education***, published by UNESCO and supported by multiple UN agencies. This publication actually says that abstinence education is harmful for children!

Did you know that Planned Parenthood has teamed up with UNFPA to create a [sex education assessment tool](#), which is based on and upholds the Planned Parenthood-supported "It's All One Curriculum" as the model curriculum for the whole world?

**"It's All One Curriculum"** scored 15 out of 15 for elements harmful to children when analyzed using our [15 Harmful CSE Elements Analysis Tool](#). Among other things, our analysis shows that **"It's All One" promotes abortion (with over 1,000 references), encourages promiscuity, and teaches children about "sexual pleasure" (60 references)**. Like most comprehensive sexuality education programs, "It's All One" is

really just a cleverly disguised abortion rights, sexual rights, and sexual pleasure advocacy education program.

### **Is “It’s All One” in your school?**

Did you know that Advocates for Youth (AFY), Planned Parenthood’s youth partner organization, is really just a front for Planned Parenthood, working to get their programs into every school in every country, claiming that this is what all youth are demanding?

**Did you know that Advocates for Youth has teamed up with UNFPA to produce a [sex-ed training module for African teachers](#)?** It contains a brochure sending youth to Planned Parenthood clinics for sexual and abortion counseling.

Click here to see quotes from the Advocates for Youth program titled “[Rights, Respect, Responsibility](#)” or the 3Rs, that they are [pushing throughout California](#) and in other U.S. States.

**We have found that sex education manuals across the globe all magically seem to have the same [15 harmful elements](#)** that we have identified are common to Planned Parenthood-style comprehensive sexuality education.

Did you know that International Planned Parenthood Federation (IPPF) is the *only* NGO included in a [partnership](#) with UNDP, UNFPA, UNICEF, WHO, the World Bank, and UNAIDS in something called the [Human Reproduction Program](#) (HRP)?

**The HRP publication, “[Sexual Health, Human Rights and the Law](#)” has Planned Parenthood’s fingerprints all over it, promoting CSE, prostitution, transgender rights and much more.**

Parents in the U.S. beware!

**When Planned Parenthood is involved, sexual rights are promoted at the expense of sexual health.**

Did you know that Planned Parenthood recently won a series of lawsuits in U.S. federal courts forcing the U.S. Department of Health and Human Services to continue to fund

Planned Parenthood entities and programs at Obama-era levels with millions of U.S. tax dollars?

**[Click here](#) for quotes from some of these radical federally funded U.S. programs.**

We hope you are now sufficiently alarmed to take immediate action to protect children from Planned Parenthood. Please consider taking the following actions steps:

1. **Find out what sex education programs Planned Parenthood is implementing in your country, state and community.**
2. **Find out what is being taught in your children's schools**—demand to see a copy of any sex education curriculum.
3. **Do everything in your power to expose the Planned Parenthood programs you find**, and invite parents and religious leaders to join with you.
4. **Share our documentary, “[The War on Children](#): The Comprehensive Sexuality Education Agenda,”** found online at [WaronChildren.org](http://WaronChildren.org).
5. **[Sign our petition](#)** calling upon the UN Member States to investigate the activities of Planned Parenthood.

**Note:** If you live in the United States and would like to get involved in protecting children from Planned Parenthood sex-ed in your state, please email us at [fwi@familywatch.org](mailto:fwi@familywatch.org)
