Share what you learn!

- Teach your family. Often. Clearly. Talk about uncomfortable stuff. Talk to them about marriage, family, sexual identity issues, gender ideology, chastity, pornography and more. Talk openly. If you don't, they will learn elsewhere and you'll be left wondering why they don't believe as you do.
- Share what you know with others--family, friends, neighbors, co-workers. Kindly, clearly.

- Share on Social Media – FB groups, emails, etc. – spread the word!

- **Connect us to those who can make major contributions to the cause**

****Speak up and stand for the family. Please stay centered on truth and say something! Evil has progressed because we're afraid to say something. It can be as simple as, "I believe that families are the answer to the problems in the world." Get talking points from Family Watch. Read and practice!****
